Create Team

Rules for Creating a Team

1. When you create a Team, you will be the Team Leader.
2. In order to add a member to the team, Team Leader would have to use the registered Email ID of that person while adding him/her to the team.
3. Team Leader has the authority to add members to the team, dissolve team or remove a member.
4. While adding members to the team, **members must already have been registered (not necessarily a part of any Team) once for any of the competitions.**
5. Your team size can vary from 1 to 4 (maximum limit varies for various competitions).
6. Team leader need not add all team members at once, he/she can either add some members or none.
7. Although, leader can add members to the team only once i.e. while creating the team but later, if there is a need to add members (assuming space is available), the leader can dissolve a team and form a new one or members can use Join a Team feature.
8. If Team leader has **no team members to add he can submit the form without any registered Email ID.** Later if need be, team members can be added as mentioned in the above point.

Points to remember

1. Member being added to a team must not already be in another team of the same competition. If done so, the team will not be able to form.
2. Some competitions have a maximum limit of 2 members in the Team. Then while creating the team for this case **Do fill in only one box (top) and leave the other two boxes** while filling the form.

The screenshot shows a mobile browser interface for the 'CREATE A TEAM' form on techfest.org. The form is titled 'CREATE A TEAM' and includes instructions for the user, Vivek Saurabh Verma, who is the team leader. It explains that the user must use the registered email IDs of team members to add them to the team. The form includes a section for 'DO MAKE SURE TO READ THE EXAMPLES BEFORE CREATING YOUR TEAM.' with two cases: Case 1 (adding one more member to an existing team of 2) and Case 2 (creating a new team with no members). Below the instructions, there are four input fields for email IDs: the first is pre-filled with 'viveksv.techfest@gmail.com (TEAM L)', and the others are labeled 'E-mail ID of member 2', 'E-mail ID of member 3', and 'E-mail ID of member 4'. A 'SUBMIT' button is at the bottom.

Steps to Create Team

1. Click on Create Team
2. Read the instructions on the form and fill it with Registered mail ID of the participant, the leader wants to add in team. Submit the form.
3. Your Team will be formed and Team leader will have the option to Dissolve Team, Remove Member.

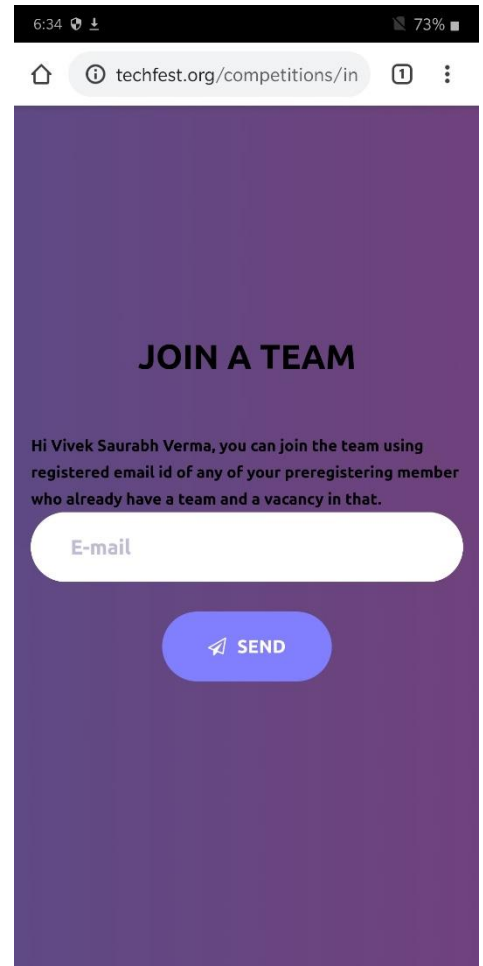

Join Team

Rules for joining an existing team

1. Use the Registered Mail ID of any existing member of the Team (where one wishes to get added).
2. The person should not already be part of another team in the same competition. Otherwise, he won't get added.

Steps to Join Team

1. Click on Join Team
2. Read the instructions on the form and fill it with Registered mail ID of any existing member of the Team (where one wishes to get added). Submit the form.
3. You will be added to the team and will have the option to Leave Team.

The screenshot shows a mobile browser interface for the 'Join a Team' page on techfest.org. The page has a purple background. At the top, it says 'JOIN A TEAM'. Below that, a message reads: 'Hi Vivek Saurabh Verma, you can join the team using registered email id of any of your preregistering member who already have a team and a vacancy in that.' There is a white input field labeled 'E-mail' and a blue button with a paper plane icon and the text 'SEND'.
